Materials for your:
TraffMaster

1.5mm Traffolyte with adhesive

for Laser and Rotary Machines

Indoor and Outdoor Use

All supplied with 3M High Temp Adhesive backing by default

A4 TRAFF

A4 (300x200mm) with Adh \$15

(No Adh @ \$12)

| |
|-----------------------------------|
| Traffolyte White/blk Adh 300x200 |
| Traffolyte Red/whi Adh 300x200 |
| Traffolyte Gre Adh 300x200mm |
| Traffolyte Blu Adh 300x200mm |
| Traffolyte Yel Adh 300x200mm |
| Traffolyte Black/whi Adh 300x200 |
| Traffolyte Adh W/Crimson 300x200 |
| Traffolyte Adh W/Blew 300x200 |
| Traffolyte Fake Ss316 Adh 300x200 |
| Traffolyte Crims/blk Adh 300x200 |

Optional sizes

300x200mm with 3M adhesive @ \$15 ex (or no Adhesive \$12)

400x300mm with 3M adhesive @ \$27 ex (or no Adhesive \$22)

600x300mm with 3M adhesive @ \$38 ex (or no Adhesive \$30)

Soot cleaning and plates packing

1-pre-spray traff with Mr sheen
Traf-Mr sheen \$6 so soot will not stick

2- remove soot with desolve-it or traff cleaner
Traf-desolveit \$6
Traf-soot remover \$15

3-apply Traff-masking tape 100mm and cut perimeter this will keep the plates as one pannel \$42

4 -each draw has a 6mm Perspex heavy plate to flatten curved traff
Flat traff engraves better
Traf-flat storer \$125 (with 5 perspex 6mm weights)

eq-safe roller cut 600 @ 250ex

eq-safe roller cut 300 @ 85ex
eq-Safe roller cut 600 @ @250ex

Industrial safety guillotine
eq-guillotine USA 320mm \$1,800ex

Note: Unsafe to use box cutter

Traffolyte Flatness Manager

Our flatness management system utilizes a heavy 6mm flat acrylic plate. for each of the draws. When this plate is positioned atop the traffolyte, it keeps the Traffolyte flat, With perfect flatness and focus, engraving and cutting is much easier and less sooty.
Traf flat storer @ 125 ex ea (draws and 6mm perspex plates)

Blank Stainless Plates

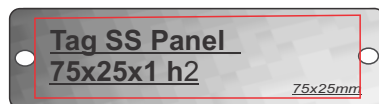

MetalMaster

Fibre engraving machines Machines engrave directly into stainless

and Cermark is **not required**

For workshops with high quantities of stainless steel engraving, consider our MetalMaster15 as it will engrave stainless 20 times faster and no chemicals or patches are required

TraffMaster CO2 Machines need Cermark to Engrave Stainless Steel. We recommend our Cermark patches
Cermark patches, are easy to apply, easy to transport, no blocked nozzles, no hazard spraying issues.

Tag-Panel SS 75x25mmH2 100 @ \$4.20 ea ex
Tag-Cermark Patch (to suit) 75x25mm 100 @ \$1.80 ea ex

Tag Cable MP 90x9mm 100 @ \$0.52ea ex
Tag Cermark patch 90x9 100 @ \$0.59 ea ex

Cermark Paste 250g 1 @ \$290ex
Cermark Paste 500g 1 @ \$530ex

**Cost Warning to transport "Cermark Aerosol Can" (hard to freight DG)
Hazard safety spraying issues --follow safe spraying venting procedure.**

Cermark Spray 1 @ \$165ex
Cermark Spray 3 @ \$155ex
Cermark Spray 12 @ \$145ex
